Mit Verantwortung einer großen Familien-Tradition

CARRYING RESPONSIBILITY FOR A GREAT FAMILY TRADITION

...und unsere Kunden gehören zur Familie.

Wir stehen mit unserem guten Namen hinter der Qualität unserer Produkte. Das ISO 9001-Zertifikat unterstreicht diese Einstellung - eine Einstellung, die nun schon die vierte Generation unserer Familie prägt, für die Kunden-nähe immer das Wichtigste im Geschäft war.

Unsere große Auswahl an Leuchten ist das Ergebnis recht intensiver Marktnähe. Viele Entwürfe unserer Designer sind umgesetzte Ideen, zu denen uns Kunden in aller Welt inspiriert haben.

Wir exportieren heute in über 100 Länder auf der ganzen Welt. Neben unseren Lichtzentren in Wien (4), Linz, Graz (2) und Klagenfurt betreiben wir auch Häuser in Prag, Budapest, Bratislava und sind durch zahlreiche Vertragspartner in vielen Ländern der Welt vertreten.

Produkte aus den vielfältigen Programmlinien von Orion verschönern heute Wohnungen und Häuser genauso, wie große, bedeutende Objekte. Ob persönlicher Leuchtenkauf in einem unserer Lichtzentren oder intensive Zusammenarbeit mit Architekten und Innenausstattern, die persönliche Beratung durch unsere kompetenten Fachleute ist Kern unseres Servicebemühens.

Auswahl, Produktqualität, Lieferfähigkeit, Ersatzteilsicherheit, Designkompetenz und innovative Lichttechnik verhelfen Orion seit über 50 Jahren zu weltweiter Bedeutung.

..and our customers are part of the family.

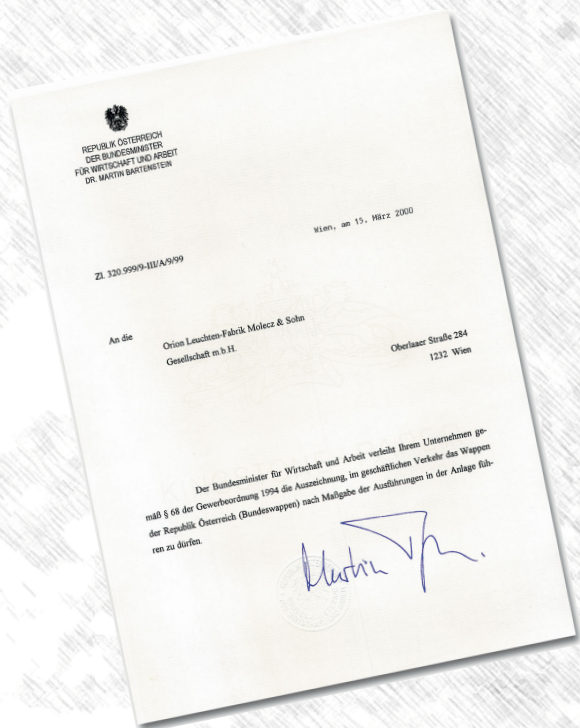

We vouch for the quality of our products with our reputation. Personally and with commitment. The ISO 9001 certificate underlines this attitude - an attitude which has characterized four generations of a family for whom closeness to the customer has always been the most important aspect of the business.

Our large selection of lamps is the result of intense involvement with the market. Many models from our designers derive from ideas inspired in us by customers from all over the world.

Today we export to more than 100 countries worldwide. In addition to our lighting centres in Vienna (4), Linz, Graz (2) and Klagenfurt, we also run businesses in Prague, Budapest, Bratislava and are represented by numerous authorized partners in different countries.

Products from the versatile Orion series add beauty not only to apartments and houses, but also to large, important buildings. Whether your needs involve buying lamps for yourself in one of our lighting centres, or intense cooperation with architects and interior designers, personal advice from our experts is at the heart of the service we offer.

Selection, product quality, availability, replacement part security, design competence and innovative lighting technology have contributed for 50 years to the global importance now enjoyed by Orion.

60 Jahre Molecz - 60 years Molecz

Firmengeschichte

Die Unternehmensgeschichte des Hauses Molecz begann im Jahre 1948. Damals wurde das Einzelhandelsunternehmen „Rudolf Molecz, Handelsvertretung Elektrowaren und -Material“ in Wien 11 angemeldet. Leopold Molecz, der heutige Seniorchef, half damals bereits seinem Vater Rudolf beim Aufbau der neu gegründeten Firma.

Nachdem ursprünglich mit Elektroteilen gehandelt wurde, begann man sehr bald in reiner Handarbeit Leuchten aus halbfertigen Teilen zu montieren. Die so entstandenen Stücke waren von hoher Qualität und fanden bald zahlreiche begeisterte Käufer.

Ab 1951 wurden schon kleinere Maschinen verwendet und die Produktion ausgeweitet. Nur zwei Jahre später platzte die kleine Firma bereits aus allen Nähten und übersiedelte in größere Geschäftsräume. Nach weiteren zwei Jahren mußten am neuen Firmenstandort in Wien 10 für die Schaffung von Schauräumen, um das beachtlich angewachsene Sortiment präsentieren zu können, weitere Räumlichkeiten zugekauft werden. Zu dieser Zeit stieg Leopold Molecz offiziell in das Geschäft ein, und die Firma wurde in die „Rudolf Molecz & Sohn OHG“ umgewandelt.

Seit 1959 hatte die Familie Molecz die Gewerbeberechtigung zur fabrikmäßigen Erzeugung von Beleuchtungskörpern, und da eine rasante Produktionsausweitung vorauszusehen war, begann man in Wien-Oberlaa eine Fabrik zu errichten. 1960 war der Bau fertiggestellt, weitere Leuchtenmodelle wurden ins Programm genommen und in der Folge einige Eigenentwicklungen sogar patentrechtlich geschützt.

Knapp 10 Jahre später entschlossen sich Leopold Molecz und sein Vater in der Neubaugasse in Wien 7, ein repräsentatives Leuchtenfachgeschäft zu etablieren. Das „Leuchtenzentrum“ war damals mit 2.000 m² Ausstellungsfläche das größte Leuchtenfachgeschäft Europas und wird auch heute noch allen Anforderungen gerecht.

1973 wurde die Fabrik abermals ausgebaut und um das neue Herzstück der Produktion, die Galvanik, erweitert, wobei es den Technikern in der Folge gelang, eine innovative Art der speziellen Oberflächenveredelung zu entwickeln. Gleichzeitig bekam das Unternehmen auch ein neues fünfstöckiges Verwaltungsgebäude.

Company History

The Molecz story began in 1948, when the retail firm was registered in Vienna's 11th District as „Rudolf Molecz, Electrical Merchandise & Materials Trade Agency“, and when Leopold Molecz, today the firm's CEO, helped his father Rudolf to set up the newly founded company.

Originally dealing in electrical components, the company very soon began to assemble lamps from semi-finished parts, exclusively by hand. The units thus produced were of high quality and soon attracted a multitude of enthusiastic purchasers.

Small machines were in use by 1951, when production also expanded. Only two years later, the company, bursting at the seams, moved into larger business premises. A mere two years passed again before new premises had to be purchased at the company's new headquarters in Vienna's 10th District for showroom space to display the impressively growing product assortment. Leopold Molecz officially joined the company at this time, and the firm's name changed to „Rudolf Molecz & Son Inc“.

The Molecz family had had a trade licence for factory-manufacturing lighting fixtures since 1959 and, since explosive growth in production was in the offing, they began to build a factory in Vienna-Oberlaa. The plant was finished in 1960, new lighting models adopted into the programme and, subsequently, some of the firm's special developments were even patented.

Not quite 10 years later, Leopold Molecz and his father decided to establish an impressive lighting-specialty shop in Neubaugasse, Vienna 7. At the time, the lighting centre was the largest shop of its kind in Europe, boasting 2000 m² of retail floor area; it remains a model of its kind to this day, meeting customers' most stringent demands.

The factory was again expanded in 1973, including the new central production component, the galvanising shop, where the technicians succeeded in developing an innovative way of specially finishing surfaces. At the same time, the company moved into a new, five-storey administration building.

1975 schließlich wurden der Produktions- und Handelsbereich getrennt und die Firma erhielt - nach einer äußerst erfolgreichen Produktserie - ihren heutigen Namen „ORION Leuchten“.

Nach ihrer schulischen Ausbildung traten die Söhne Peter und Paul -1976- und Michael -1982- in das Familienunternehmen ein und sind seit 1984 in leitender Funktion tätig und inzwischen ist bereits die 4. Generation durch Florian Molecz in der Firma vertreten.

Zug um Zug wurden nun ORION-Fachgeschäfte in anderen Teilen Österreichs eröffnet. Derzeit gibt es ORION-Lichthäuser in Salzburg, Linz, Graz, Klagenfurt und viermal in Wien. 1984 entstand in Wien-Oberlaa das riesige Zentrallager, dem auch die Exportabteilung angeschlossen ist.

Ein wesentlicher Aspekt des Erfolges von ORION ist ja auch, daß schon seit den 60-er Jahren ein nicht unwesentlicher Teil der Produktion exportiert wurde. Die Exporte, die bald nahezu sämtliche Regionen der Welt umfaßten, wurden durch Beteiligungen des Unternehmens an Auslandsmessen und Ausstellungen unterstützt. Die ersten führten bereits 1973 nach Budapest und Moskau; Hunderte Messen folgten danach weltweit. Ab dem Jahre 1985 konzentrierte sich das Exportgeschäft auch auf den Projektbereich, wobei Paläste namhafter Herrscherdynastien von ORION ausgestattet wurden. Auch Großleuchten für bedeutende Hotelketten werden seither individuell angefertigt.

1990 verlagerten sich die ORION-Exporte zu den jungen Demokratien der Reformstaaten in Mittel- und Osteuropa, sowie vor allem nach Russland und die GUS-Region. Ab 1993 wurden auch eigene Niederlassungen in Budapest, Bratislava und Prag gegründet.

ORION-Leuchten ist heute der größte österreichische Erzeuger von Wohnraumeuchten und die Qualität seiner Produkte beweist das internationale Zertifikat ISO 9001.

Mit Stolz trägt das Unternehmen auch das österreichische Staatswappen, das ihm im Jahre 2000 vom Wirtschaftsminister für Verdienste um die Wirtschaft des Landes verliehen wurde und das die Leistungen aller Familienmitglieder sowie der gesamten Belegschaft ehrt.

Eventually, the production and business areas were separated in 1975, and the company was renamed „Orion Lighting“ after an extremely successful product series.

After finishing school, the sons Peter and Paul joined the family business in 1976, followed by Michael in 1982. They have been active in the firm as managers since 1984. Actually, already the 4th generation is represented by Florian Molecz.

One after another, Orion specialty shops opened in other parts of Austria. Now, Orion outlets are located in Salzburg, Linz, Graz, Klagenfurt; there are four more in Vienna. The enormous central warehouse was opened in Vienna-Oberlaa in 1984, which is also connected to the export department.

Export has been a key factor in Orion's success; a large part of production has been exported since the 1960s. These products, which reach almost every region of the world, have been supported by the company's participation in trade fairs and exhibitions abroad. The initial ones introduced the company to Budapest and Moscow in 1973, after which the firm was present at hundreds of others across the world. As of 1985, exports focused on the project area; palaces of renowned ruling dynasties were outfitted by Orion. As of the same time, many large-scale lighting fixtures have also been individually produced for major hotel chains.

In 1990, Orion exports shifted to the young democracies in the reform countries in Central and Eastern Europe, as well as to Russia and the CIS region in particular. New branch offices were also established in Budapest, Bratislava and Prague as of 1993.

Today, Orion is the largest Austrian manufacturer of residential lighting fixtures, the international ISO 9001 certificate testifying to the products' quality.

The company is proud to bear the Austrian coat of arms, awarded for services to the country's commerce by the Minister of the Economy in 2000 to honour the achievements of both the family members and the entire staff.

Produktion - das zeichnet uns aus / Production - our Forte

Orion-Leuchten werden für anspruchsvolle Kunden geschaffen. Wer Qualität, Eleganz und Langlebigkeit schätzt, kommt gerne zu Orion und hat viele Jahre Freude an seinen Leuchten. Hier verbinden sich die Kreativität der Designer und die österreichische Handwerkskunst zu Produkten, die in der ganzen Welt Anerkennung finden. Oft inspirierte sogar ein prunkvoller Luster einen Architekten und wurde das Herzstück eines repräsentativen Bauwerkes.

Entwicklungs- und Projektteilung

Am Anfang steht immer eine Idee. Bei Orion werden viele Leuchten - oft auch nach Kundenwünschen - selbst entworfen, und als Prototypen erzeugt. Entspricht das Ergebnis den Erwartungen, geht das Produkt in die Fertigung. Andere Leuchten wieder werden von namhaften Designern entworfen und von Orion gefertigt.

Viele Objekte sind mit Sonderanfertigungen ausgestattet, die eigens entwickelt und gefertigt wurden. So bekommt jeder Wohnraum und auch jedes Großprojekt genau die Beleuchtungskörper, die passen und den Raum im wahrsten Sinne des Wortes „ins rechte Licht rücken“. Qualitäts- und Sicherheitsnormen finden dabei immer besondere Beachtung.

Die daraus resultierende Erstserie wird nun im hauseigenen Labor genauestens geprüft und erlangt erst nach Gutbefund die Produktionsfreigabe. Ist diese erfolgt, durchlaufen die Einzelteile die verschiedenen Abteilungen, bis aus ihnen die fertige Leuchte entstanden ist. Die Fertigungsaufträge werden in der Arbeitsvorbereitung computerunterstützt erstellt und so die Produktion vorbereitet.

Werden Orion-Leuchten nach ISO-Normen zertifiziert, kommen sie noch in ein eigenes Prüflabor und werden noch einmal auf „Herz und Nieren“ getestet. Unabhängige Institute prüfen Orion ebenfalls, und jede Leuchte die im Ausland verkauft wird, erhält vom Abnehmer-land ein Zertifikat, das die hohe Qualität bescheinigt.

Orion lights are made for clients with high standards and who enjoy many years our products' quality, elegance and longevity. Orion combines designer creativity and Austrian craftsmanship to create products that win acclaim all over the world. Sometimes, a splendid chandelier has even inspired an architect to make it the heart of an imposing construction.

Design and project department

Everything starts with an idea. At Orion, we design many lamps ourselves, often according to customers' wishes, and produce them as prototypes. If the results meet expectations, the product goes into manufacture. Other lamps are drafted by renowned designers and then manufactured at Orion.

Many of them are outfitted with special features, individually developed and manufactured.

Thus, every living area and large-scale project is precisely furnished with perfect illumination, ideally presenting the rooms in their best light,

yet never compromising on stringent quality and safety standards.

The resulting initial series is now tested minutely in our own laboratory and not released for production until it meets our quality requirements. Then the individual components pass through various departments until they are assembled to form the finished lamp. Manufacturing orders are computer-supported when being drawn up during work preliminaries,

thus preparing for production.

If the Orion lamps are to be certified according to ISO standards, they are again submitted to an „acid test“ in a special laboratory. Independent institutes also check Orion and every lamp sold abroad also receives a certificate in the country or purchase testifying to its high quality.

Orion lights are made for clients with high standards and

Werkstätte

Zu Beginn werden die Einzelteile in der mechanischen Werkstätte aus hochwertigen Materialien - vorwiegend MESSING - in Handarbeit hergestellt, wobei verschiedene Arbeitsschritte notwendig sind, bis die Roheinzelteile in die nächste Abteilung gelangen. Je nach Oberflächenausführung erfahren die Teile danach unterschiedliche Behandlungsformen.

Mechanical workshop

Initially, the individual parts are made by hand in the mechanical workshop using high-quality materials (mainly SOLID BRASS); various work-stages are necessary until the raw individual parts pass along to the next department, where they undergo differing kinds of treatment, depending on the surface finish.

Schleiferei

Als nächster Schritt folgt das Polieren der Stücke, wobei die Teile in aufwändiger Handarbeit auf Hochglanz gebracht werden. Das Ergebnis kann sich jedenfalls sehen lassen - Orion Leuchten behalten jahrelang ihren Glanz.

Polishing department

The next step is polishing the parts to a high sheen - an elaborate process done by hand. But the effort is worth it - Orion lamps maintain their lustre for many years.

Putzerei

In einer vollautomatischen Reinigungsanlage werden die Teile mit einem Reinigungsmittel auf wässriger Basis umweltschonend gereinigt und gelangen nach penibler Prüfung der Oberflächenqualität in das Herzstück der Oberflächenbearbeitung - die Galvanik.

Cleaning department

The parts are cleaned in a fully-automated unit using an eco-friendly water-based cleanser. After undergoing a scrupulous test for surface quality, they move on to the central stage of surface processing - galvanising.

Galvanik

Mit Hilfe der vollautomatischen Galvanikanlage wird die typische Orion-Oberfläche hergestellt - wie z.B. die hochwertige 24-Karat-Vergoldung, Glanznickel, Nickel matt, Patina, Bronze oder die widerstandsfähige Chrombeschichtung. Bei Patina- und Bronzeoberflächen wird nach der Galvanik das charakteristische Schlibbild von Hand schattiert. Der Umweltschutz liegt Orion sehr am Herzen, und beim Galvanisieren spielt er tatsächlich eine wichtige Rolle. Alle Abwässer die hier entstehen, werden gefiltert bzw. gereinigt und bleiben zum Großteil in einem geschlossenen Kreislauf. Die benötigte Energie kommt hauptsächlich aus Erdgas. So kann dieser Vorgang umweltschonend gestaltet werden, was bei großen Produktionsmengen wesentlich ist.

Galvanising department

The typical Orion surface is created using a fully-automated galvanising unit, giving the parts a coating of e.g. high-quality 24-carat gold plating, polished nickel, matte nickel, patina, bronze or a resilient chrome layer. With patina and bronze surfaces, the characteristic grinding texture is shaded by hand after galvanising. Environmental protection is written large at Orion, actually playing an important role during galvanising. All waste water is filtered and purified, remaining for the most part in a closed circuit. The requisite energy is primarily provided by natural gas; thus, this process is eco-friendly, an essential factor in large production quantities.

Lackiererei

In der Lackiererei wird die Schutzlackierung aufgetragen, die allen Produkten eine bleibende und beständige Oberflächenqualität verleiht. Dabei wird die überwiegende Anzahl der Teile mit Hilfe eines elektrostatischen Verfahrens händisch lackiert und danach in Aushärteöfen bei 120 Grad gebrannt. Nach dem Trockenprozeß prüfen Mitarbeiter alle Teile nochmals und bereiten sie für die Montage vor.

Lacquering department

This is where protective lacquer is applied, giving a durable and resilient quality to the products' surfaces. Most of the parts are lacquered by hand in an electrostatic process and then fired in a hardening kiln at 120° C. Once the drying process is complete, employees check all the parts once again before preparing them for installation.

Montage

Abschließend werden in der Montageabteilung bzw. auch in Heimarbeit die einzelnen Teile zu kompletten Beleuchtungskörpern zusammengebaut. Das hohe Qualitätsniveau der Orion Produkte wird nicht zuletzt auch dadurch ermöglicht, daß jeder Mitarbeiter eine Leuchte vom ersten Montage-schritt bis zum letzten elektrischen Anschluß vollkommen selbständig zusammenbaut, wodurch auch eine enge Beziehung zum Endprodukt ermöglicht wird. Besonders bei der Montage von Kristallustern ist eine immense Fingerfertigkeit erforderlich, die vorwiegend durch den Einsatz von weiblichen Arbeitskräften gewährleistet wird. Die Mitarbeiter dieser Abteilung arbeiten ausschließlich nach Zeichnungen der Projektierungsabteilung. Sie fertigen Standardmodelle ebenso genau und zuverlässig wie Spezialanfertigungen. Selbst Riesenluster aus mehreren 100.000 Kristallsteinen sind hier schon entstanden.

Ist eine Leuchte zusammengebaut, wird sofort die Funktionstauglichkeit geprüft, und nur Produkte die ästhetisch entsprechen und technisch fehlerfrei sind, kommen zu guter Letzt zur Endkontrolle.

Assembling department

In the final phase, the individual parts are assembled into lighting fixtures in the installation department and/or in at-home work. Orion products' high level of quality is not least guaranteed by the fact that each employee assembles a lamp completely independently from the initial installation step to the final electrical connection. An enormous degree of dexterity is required when assembling crystal chandeliers in particular; this work is primarily done by female employees. The employees in this department work exclusively according to drawings from the project department, assembling standard models just as precisely and reliably as special orders. Even giant chandeliers containing several hundred thousand crystals have already been assembled in this department.

Once a lamp has been assembled, it is immediately tested for functionality; only products which are aesthetically acceptable and technically flawless pass on at last to final inspection.

Endkontrolle

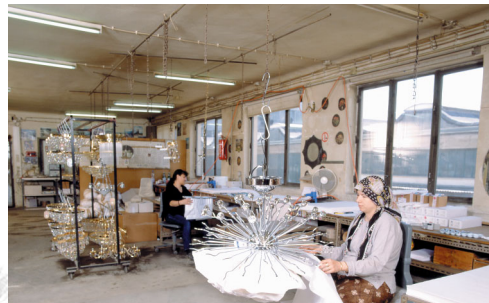

Der Name Orion steht für Ästhetik und Qualität. Und die Qualität aller Produkte wird auch Tag für Tag überprüft. Im Testraum kontrollieren bestens geschulte Mitarbeiter jede einzelne Leuchte auf einwandfreie Funktion und Fertigungsqualität. Ein computergesteuertes Prüfsystem garantiert, daß nur fehlerfreie Produkte die Konsumenten erreichen. Jede Leuchte kann, wenn es erwünscht ist, bei der Endkontrolle ein Qualitätszertifikat erhalten.

Final function- and qualityinspection

The name Orion stands for aesthetic appeal and quality - and all our products are quality-checked day by day. In the testing room, excellently trained employees inspect every individual lamp for impeccable functioning and manufacturing quality. A computer-controlled testing system guarantees that only flawless products reach the customers. If desired, we can provide a certificate of quality for every lamp during final inspection.

Die fertigen, geprüften Leuchten werden schlußendlich verpackt und zu einem der Zentrallager der Firma geschickt. Von dort aus erreichen sie die Kunden in der ganzen Welt.

In the ultimate phase, the inspected lamps are packaged and sent to the company's central warehouse, from which point they are sent out to customers all over the world.

Alle hier dargestellten Fertigungsschritte werden ausschließlich in unserer Fabrik in Wien durchgeführt, was wesentlich zur Sicherung österreichischer Arbeitsplätze beiträgt.

All the manufacturing steps outlined here are carried out exclusively in our factory in Vienna, thus significantly contributing to job security in AUSTRIA.
